

8.6 VIEW ROSTER EDIT RESULTS

Introduction

The View Roster Edit Results screen will allow you to view and/or print roster edit rejects. Summary information, including the total number of roster edit failures and the number of failures for the test “type” (i.e., survey rule) will also be provided.

Accessing the Screen

- Click on the SURVEY SPECIFICATIONS button from the StEPS Main Menu.
- Click on the EDIT DEFINITIONS button from the Survey Specifications Menu.
- Select the “Roster Edits” option.
- Select the GOTO pmenu option from the Roster Edit Operations screen.
- Select “View Edit Result” to display the following:

(Note: You may also access this screen by clicking on the GOTO p-menu on select edit screens and selecting the “View Edit Results” option.)

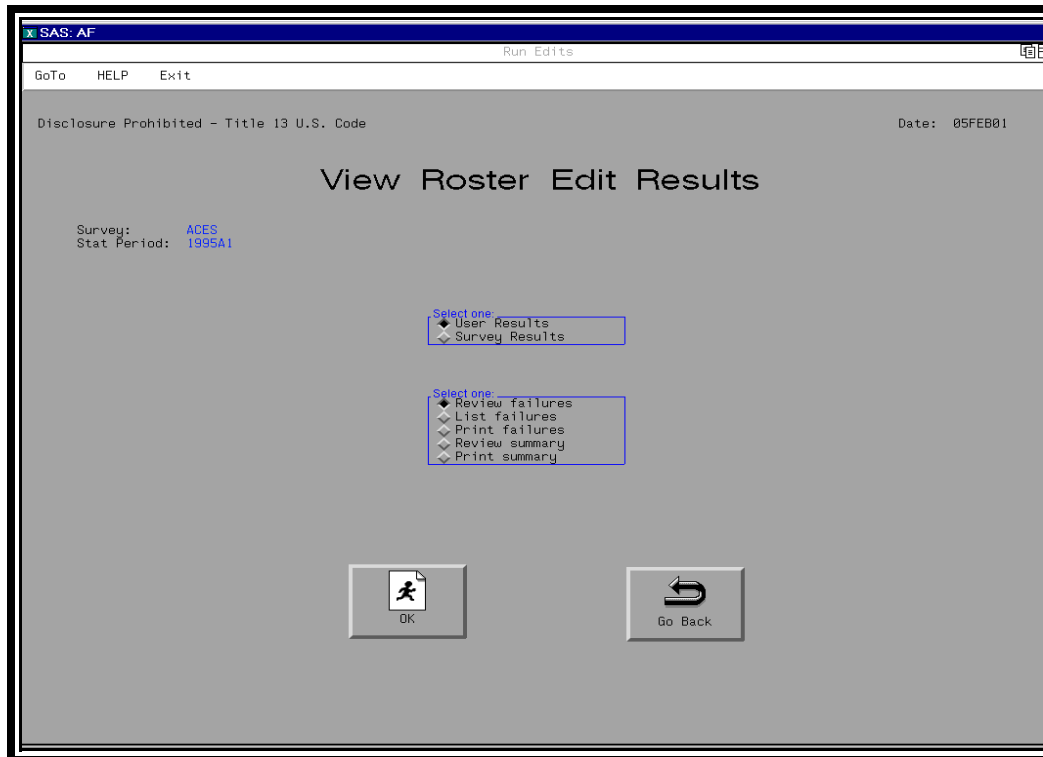

Figure 8.6 View Roster Edit Results Menu

Screen Features

- Click on the appropriate button to view “User” results or “Survey” results. “User” results are rejects created from the Roster Interactive Edit. “Survey” results are rejects created from the Roster Batch Edit. (“User Results” will be the default.)
- Select an option to view or print the roster edit failures. You can choose to review, list, or print ID failures or view a summary of all failures. Each of these options will be explained in detail in Sections 8.6.1 - 8.6.3 to follow.

Once you have selected an option, click on the “OK” button at the bottom of the screen.

Figure 8.6.1 Review Failures Screen

- The following information is displayed in the header portion of the screen:

Survey	Survey currently being processed.
Stat period	Stat period currently being processed.
File	File being reviewed: “User Results” (Roster Interactive Edit) or “Survey Results” (Roster Batch Edit).
Edit type	Type of edit test that was run: “Survey Rule Validation Tests”.
Run date	Date/time that the edit was run.

Event	Indicates the event for which the edit was run: Full edit or pre-edit. (See section 8.1 for detailed information on full and pre-edits.)
Run scope	Indicates whether the edit was run on the entire survey file or a selection set.
IDs in error	Total number of <u>IDs</u> with edit failures.
Total of errors	Total number of edit failures.
Top is error #	Number of edit failure currently displayed at the top of the screen.
Top	Access first edit failure record.
Bottom	Access last edit failure record.
Jump to	Enter the number of the edit failure you wish to access.

- The following information is displayed in the edit failure portion of the screen:

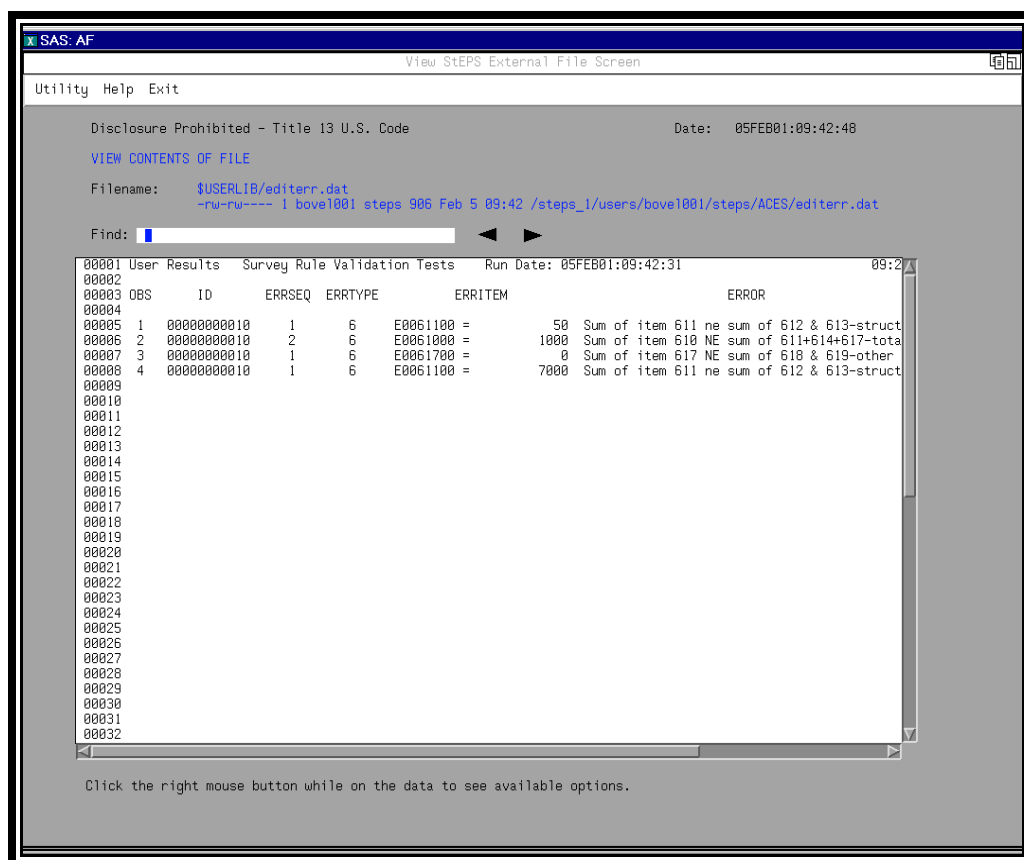

ID	ID of case that failed this particular edit test.
Data item/value	Item code of key roster item in test, and its corresponding value.
Error sequence	Sequence number of the edit reject for the ID specified (i.e., '3' is 3 rd edit failure for ID, '5' is 5 th edit failure for ID).
Error type	Type of edit test as defined in the Roster Edit Definitions screen (i.e., '6' = survey rule).
Error	Edit reject message as defined in the Roster Edit Definitions screen.
Ran by	Individual who ran the edit.
Rkey1	The roster key that failed this particular edit test
Failure	Displays edit test number and edit test type.
Date	Date/time that the edit was run.

8.6.2 LIST / PRINT FAILURES

1. Select the “List Failures” option to display a list of edit rejects on your screen:

8.6.2 List Failures Screen

- The following information is displayed in the header portion of the screen:

File:	File being reviewed: “User Results” (Roster Interactive Edit) or “Survey Results” (Roster Batch Edit).
Run date:	Date/time that the edit was run.
- The following columns of information are displayed in the listing:

OBS	The observation number of the edit reject in the edit reject file.
ID	ID of case that failed this particular edit test.
ERRSEQ	“Error sequence” - Sequence number of the edit reject for the ID specified (i.e., ‘3’ is 3 rd edit failure for ID, ‘5’ is 5 th edit failure for ID).
ERRTYPE	“Error type” - Type of edit test as defined in the Roster Edit Definitions screen (i.e., ‘6’ = survey rule).
ERRITEM	Item code of key roster item in test and its corresponding value.

ERROR	Edit reject message as defined in the Roster Edit Definitions screen.
FAILURE	Test number, key roster item, and edit type of the edit test.

2. Select the “Print Failures” option from the ‘View Roster Edit Results’ screen to send a copy of the edit reject list (as shown in figure 8.6.2, above) to your default PC printer.
